Dublin City Schools Philosophy on Summer Reading:
Literacy involves reading, writing, speaking, listening, thinking, and interacting. When considering reading, research shows that choice and volume of reading are essential to reading development. Reading over the summer is a critical way to maintain and build upon the reading habits developed throughout the school year. Dublin City Schools values our students’ reading lives. Therefore, we will provide year-round opportunities for our students to engage in experiences that will allow them to grow in literacy.

Dublin City Schools Summer Reading Essential Question:
How does what we know about the world affect how we view ourselves?

Summer Reading Requirements:
Each student reads a minimum of 2 books during the summer.

One book is a district-selected text. This text is relevant to AP Language and connects to the summer reading essential question. Thinking surrounding these texts will support a positive classroom literacy community beginning in the opening days of school.

The second book is the student’s choice from the DCS AP Literature Summer Reading Choice List. Students may choose any book from this list they are interested in reading.

Student Assignment
1. Read the district-selected text for 2019-2020 school year.
2. Refer to the grade-level guiding questions and consider while reading.
3. Jot down thoughts related to the guiding questions.
4. Review the book summaries, look at reviews on Goodreads, Amazon, etc. to choose a book from the DCS AP Language Summer Reading Choice List for the second read.
5. Jot down thoughts and ideas about this book.
6. Have your parents sign approving the title and completion of the independent book choice. Return the form in the fall.
7. Be prepared to participate in classroom writing and discussions revolving around the summer reading in the fall.

Students should be prepared to take part in organized response and classroom work with summer reading books immediately upon return to school. Any assessment scoring will result in no more than 10% of the student’s first quarter grade.

**On Writing: A Memoir of Craft**  
Stephen King  
ISBN: 0743455967  

"Long live the King" hailed *Entertainment Weekly* upon the publication of Stephen King's *On Writing*. Part memoir, part master class by one of the bestselling authors of all time, this superb volume is a revealing and practical view of the writer's craft, comprising the basic tools of the trade every writer must have. King's advice is grounded in his vivid memories from childhood through his emergence as a writer, from his struggling early career to his widely reported near-fatal accident in 1999 -- and how the inextricable link between writing and living spurred his recovery. Brilliantly structured, friendly and inspiring, *On Writing* will empower and entertain everyone who reads it -- fans, writers, and anyone who loves a great story well told (Goodreads.com).

Below are questions created to help guide and capture thinking while reading. Responses and evidence of thinking will **not** be collected; however, please track thinking throughout the book. The more thoughtful you are while reading, the more successful you will be in small group and whole class discussions, class activities, and assessments upon returning to school.

**Essential question: How does what we know about the world affect how we view ourselves?**

**On Writing: A Memoir of Craft Guiding questions:**

- What do you think about the idea that "you can’t be a good writer if you’re not a good reader"?
- "While it is impossible to make a competent writer out of bad writer, and while it is equally impossible to make a great writer out of a good one, it is possible, with lots of hard work, dedication, and timely help, to make a good writer out of a merely competent one." What do you think about King’s statement, and where do you feel like the most recent books you have read fit in his description?
