Superintendent Comments

Dr. Axner was asked by the board of education to review information regarding the process that lead to the decision to require parental permission to view the president's speech. Dr. Axner noted that the decision was his and is not a board of education responsibility. Dr. Axner reviewed the following facts:

Regular Meeting

September 8

09

- received an email from the US Department of Education that there would be a broadcast lesson that would be coming from President Obama.
- forwarded the email to 70 administrators as an FYI - which is understood by administrators to use at their discretion.
- a few days later, Dr. Axner received a notice from Ohio Department of Education that viewing the speech live would be a local decision. At the same time, a considerable number of parents started sending e-mails and making calls to Dr. Axner and the board of education noting that they thought the speech may be inappropriate and they would be keeping their students home on the day of the speech.
- spoke to cabinet members and other superintendents in the area and worked to make a decision that would keep students in class.
- to keep students in class (not for political reasons), it was decided to tape the speech and allow students with parental permission to view the speech.
- questioned why the transcript was not available, questioned the lesson plans (which Mr. Arne Duncan, US Department of Education, admits should have been modified and written differently)
- after community notification and a Dispatch article, a considerable number of parents who wanted the president speech broadcast live called and stated that they would be keeping their students out of class.
- reviewed issues of live vs. taped and then decided to broadcast live allowing parents to give permission to view the live broadcast. At the same time, it was announced that the transcript of the speech would be available on the day before the speech for parents to review and make decisions.
- a taped copy was posted to the website and teachers would be allowed to use as an instructional tool.

Dr. Axner addressed the question "What happens next time?". Dr. Axner noted that he takes full responsibility regarding this decision and will be reflecting on what can be done differently and will be meeting with administrative staff to improve the process for this type of programming.

Board Comments

Mr. Chris Valentine noted that it was a trying time for the community and that this was a learning experience for the district and that district staff will look at methods for improvement in the future.

Mrs. Gwen Callender thanked Dr. Axner for taking the time to review and reflect on the issues regarding the decision making process for the presidential speech. Mrs. Callender noted that staff made the best decision possible with the material available at the time and will continue to look at ways to improve processes. Mrs. Callender noted that the speech is available on the district web site and hopes parents will watch it with their children.
