Philosophy

The Dublin City Schools Language Arts program is designed to set clear and consistent expectations through an integrated model of literacy. The language arts standards are explicitly taught and integrated within all subjects throughout the day. The goal is to support children in becoming proficient and passionate readers, writers, speakers, listeners, and thinkers. We believe students learn best when literacy learning is authentic. Through collaboration and communication, students will develop the literacy skills necessary for college and career readiness. By partnering with parents and community we will ensure that students develop the skills needed to successfully meet the literacy demands of the 21st century.

Program or Course Goals

Grade Five Language Arts instruction builds on the literacy skills that were introduced at the Grade K-4 levels.

Standards include:

- Reading – *Focus on literature, informational text, foundation skills, fluency*
- Language/Word Study – *Focus on conventions, use of references, figurative language, vocabulary and grammar*
- Writing – *Focus on producing narrative, informational, explanatory, opinion and argument writings*
- Speaking and Listening – *Focus on discussions, multi-media components, formal and informal presentations*

Students will be introduced to a variety of strategies to enhance critical thinking, creativity, collaboration, and communication skills. Reading will be focused on utilizing digital and print text from a variety of sources including a classroom library. Literature explored will compare and contrast stories in the same genre on their approaches to similar themes (e.g., mysteries and adventure stories). In addition a focus on analyzing how multimedia elements contribute to text (e.g., graphic novels, multimedia presentation of fiction, folktale, myth, poem) will be highlighted. Text selected will showcase a balance of genres including a higher emphasis on informational texts. Students will continue to develop comprehension strategies in all academic areas. A focus will be on strengthening their thinking with providing evidence from texts. Building and applying key vocabulary in all areas of academics will be a critical focus. Producing organized writing appropriate to the task and purpose is a goal. Grade 5 students will conduct short research projects that use several sources to build knowledge of different aspects of a topic. Students will present their knowledge through formal and informal speaking, as well as writing and digital formats.

Common Core State Standards Strand: Reading Foundational Skills

These standards are directed toward fostering students' understanding and working knowledge of concepts of print, the alphabetic principle, and other basic conventions of the English writing system. These foundational skills are not an end in and of themselves; rather, they are necessary and important components of an effective, comprehensive reading program designed to develop proficient readers with the capacity to comprehend texts across a range of types and disciplines. Instruction should be differentiated: good readers will need much less practice with these concepts than struggling readers will. The point is to teach students what they need to learn and not what they already know—to discern when particular children or activities warrant more or less attention.
